# MAKE YOUR OWN MOVE

Quality Entry Level Fountain Pens

# *The Joy of Writing*

Handwriting is an integral part of one's life; it is something that identifies oneself and at the same time distinguishes oneself. We believe that like handwriting; every pen has its one character and personality and which is why fountain pens still survive with pride in an era that is moving towards digitalization. Vazir pens aims at accompanying each personality and its uniqueness with pride and therefore each pen is crafted with that belief of making it stand out as a unique personality.

Writing is passion to some and music to some. For a few; writing is meditation and for many it acts as stress buster. The benefits of writing are many and proven by science too, but what cannot be proved by science is the satisfaction and pleasure that one can get by writing with a nice fountain pen.

## *Something for Everyone*

The heart of each fountain pen is the nib. The Most common reason why many first time fountain pen users give up is absence of writing pleasure due to a nib not suitable for them.

Vazir Fountain Pens has something for everyone; right from people who have good handwriting to someone who prefers writing broad or someone who writes very small and uses only for signatures. We also have something for people who write with soft hands and some others who use pressure while writing. A semi flex option is available too for those who wish to try out flexing. The Nibs are #6 screws out nibs that make it not only easy maintenance but quick replacement too.

Life is like a box of crayons and we believe adding colour to life makes life interesting.

The Vazir fountain pens come in 4 colour variants, something that will catch everyones eyes.
